gain ( ) publish ( ) researches ( ) for ( )

Scientists and inventors are looking ... ( 54 ) ... new methods to develop science and help people. They usually do lots of experiments and ... ( 55 ) ... After they finish their work, they ... ( 56 ) ... books in their field. They must be energetic and hard working.

► Read the text and answer the questions.

One day Isaac was reading a book under an apple tree on the farm. An apple fell out of the tree -Ow!

Now, for most people that would be the end of the story, but not for Isaac. Not for somebody who just couldn't stop asking *why* all the time.

Why did the apple fall out of the tree? What makes things fall?

So many questions. Newton spent many years answering these questions by thinking and doing experiments. He made up the *law of gravity*. According to this law everything pulled everything else to itself by a force called gravity.

The reason that things fall toward the ground is that the earth we live on is so very heavy, and we are so close to it.

Newton's law of gravity not only explained how things fall on earth, but how planets move around the sun and how moons move around planets.

► Write T for true and F for false.

57. Newton was sitting under a peach tree.

58. The apple fell down and it was the end of story for Newton and not other people.

59. Newton didn't explain how moons move around the planets.

► Read the story again and answer the questions

60. What make things fall down?.....

## ① VOCABULARY:

► Match the words with their synonyms. One is extra.
